## **UMa suspends monthly press releases on Pandemic Influenza**

The Rector and his management team have decided to suspend the monthly press releases on Pandemic Influenza addressed to the Academic community and to the general public until further notice.

However, the monitoring of the evolution of the pandemic will continue via UMa's Operational Group and with its Contingency Plan in force.

It is foreseeable that there might be another outbreak of the Pandemic Influenza during the coming autumn and, if so, it will be necessary to rethink some of the measures and actions envisaged in the current Plan, in accordance with the guidelines of the regional authoritative health bodies and as determined by the relevant national and international courses of action.

Funchal, April 20<sup>th</sup>, 2010
